WORK EXPERIENCE

- **Ideal Access Tech Ventures**   *August 2021 till date*
  Graphic designer, FrontEnd Web Developer.
  - Creating high-quality graphics for clients
  - Gained interpersonal skills while relating with clients.
  - Gained collaborative skills while relating with colleagues.

- **TenderLuxe Tech Enterprises**   *September 2022 till date*
  CEO, Frontend web developer.
  - Building and deploying mobile-first, feature-rich websites and web applications that are secure, responsive and accessible.
  - Working on old codebases and projects to give them new a feel and implement new features.
  - Built and deployed a developer tool that allows developers generate HTML on the fly.

PROJECTS
- **DOMSculpt**
  A JavaScript tool that allows developers generate Markup (HTML), reducing the need to explicitly write HTML for their projects. This will allow them focus on implementing functionality in their projects. The tool also ensures code modularization and reusability.

- **Verbot-ai**
  An AI tool built using the Gemini API, it takes in prompt as speech and gives its response as speech. Ensuring a bidirectional conversation.

- **efIQo**
  A study tool that brings learning resources and tools together in one place. It allows users create personal and AI-powered flashcards and quizzes of learning materials among other features.
